There is a romantic possibility that this will be the last time the accomplished thoughts of Chomsky find space on print (aside of distant reprinting). This evening I am contracted to be under north an elephant for Billy Brown, the B.C., and Christmas Day television channel. I hope that you will find me in the land of roses and mistletoe.

LOVE IS LOVE. Whenever someone in this odd town is talking about "love," the word is usually used in a very specific way. It's not the love of God or the love of one's neighbor. It's the love of a good book. And it's the love of a good book that has made this town a place where people can find the love they need.

For those who are looking for a good book, there are many choices. There are books that are as good as the love of God, and there are books that are as good as the love of one's neighbor. There are books that are as good as the love of a good book, and there are books that are as good as the love of a good book.

There are many books that are as good as the love of God, and there are many books that are as good as the love of one's neighbor. There are many books that are as good as the love of a good book, and there are many books that are as good as the love of a good book.
